// PROFILE

Senior developer with **7 years** building dashboards, admin panels and booking systems — **4 of them as a full-stack engineer** shipping React, TypeScript and REST APIs end to end. Self-taught PHP + Laravel and Node.js on the job; known for mastering new technologies independently and taking ownership beyond the role. Currently leveling up: Node.js + Express + TypeScript + MongoDB.

// WORK EXPERIENCE

Full Stack Developer — Paradise Solutions (Front-End Dev → Full Stack)

2022 – 2026

- Architected dashboards and management systems (React + TypeScript, Tailwind CSS, Bootstrap) for a tourism operator: tours catalog, pricing, high season, schedules, addons and web publishing.
- Built an embedded React booking engine running on 6 destination sites (Cancun, Cozumel, Mazatlan, Puerto Vallarta, Cabo, Playa del Carmen) with live pricing through checkout.
- Built and shipped mobile app features with **React Native** as part of the full-stack role.
- Self-taught PHP + Laravel and Node.js in 2022 to build the RESTful APIs and back-end modules behind those apps — taking end-to-end ownership of the stack.
- Shipped 12+ business modules (tours, providers, operators), streamlining internal workflows and lifting overall UX.

Front-End Developer — Creativa Consultores

2020 – 2022

- Built a contract automation app (React + Bootstrap) for a Canadian law firm: dynamic forms generating instant PDF & Word contracts.
- Adapted quickly to an unfamiliar legal domain, delivering a high-impact solution on a tight timeline.

Front-End Developer — Urbano Express

2019 – 2020

- Real-time delivery tracker with Next.js + WebSockets — live driver location and order status.
- Restaurant management platform (React): products, promotions and menus synced with the company mobile app.

Freelance Front-End Developer — Independent

2018 – 2019

- Delivered websites and web apps for independent clients, end to end — from requirements to deployment.

// TECH STACK

FRONT-END React · Next.js · Vue.js · React Native

LANGUAGES TypeScript · JavaScript ES6+ · PHP

STYLING Tailwind CSS · Bootstrap · CSS3
